

JUDGE WADDILL GIVES REASONS

Full Text of His Honor's Memoranda in the Bay Shore Case.

UPPER COURT TAKES A HAND

Will Consider Matter To-Morrow on Rule of Work of Prohibition.

Interest still centers in the complicated case before the Eastern District Court of Appeals on a writ for a rule of prohibition against the former tribunal. The upper court will to-morrow consider how the feature of the case, and comment on both sides, are deeply interested in the final result. The case is an old one, and has been taken up from time to time to determine if a long time has passed since the original order was issued, and that's all reason laid to-morrow. Counsel for Zell were about the court-room during much of yesterday, though for the most part lawyers on the other side had gone to their homes to spend Sunday.

Judge Waddill's Views.

Here is a copy of Judge Waddill's memoranda, filed with the clerk after the writing of the upper court had been handed him:

UNITED STATES CIRCUIT COURT, Eastern District of Virginia.

Charles E. Pink and others vs. Bay Shore Terminal Company-In Equity.

MEMORANDUM.

Waddill, District Judge.

This case has been under argument and consideration for the last two days before the under-signed upon the question of the right to allow Frank D. Zell to appear before the court in opposition and answer certain exceptions to the confirmation of the report of the board upon the motion for confirmation of the sale of the property made herein. On the 2d day of May last it having been understood by the instance of Zell's counsel that the question of confirmation of this would not be acted upon until this day. After elaborate argument the case was finally submitted for determination at 4 o'clock this evening and having reached a conclusion upon each of the four questions, the court prepared its decree carrying out the same. At 4 o'clock when in the preparation of the last decree, a rule for a writ of prohibition was handed the court, one of the provisions of which suspends further action in the case.

Having reached the conclusion and drawn the decree carrying out the same before the prohibition proceeding was known, the said four decisions are herewith set forth as they embody the court's views and conclusions as to what should be done in the meanwhile and what is necessary to be done unless the rights of practicality and the parties in interest, including the proprietors, involving hundreds of thousands of dollars, are to be sacrificed and impaired.

These papers are sent to the end that such as may be made of them in due time proper the court having acted the least judgment in the case. All knowledge of the facts and circumstances surrounding it from my memory to the present time.

U. S. Justice, Judge.

For the Human Body in Health and Disease.

COSTS NOTHING TO TRY.

With the present supplies we will all try many of the new ways when our numbers and grandmothers gave us our daily doses of liniment and poultices every spring and fall.

If you have rheumatic aches and falls, or stiffness, or aches, or pains, or what not, just take sulphur—especially when you are cold—especially when you are wet.

APPOINTED A NAVAL CADET

Senator Daniel Selects Richard Pegram Myers for the Honor.

THE RIVERSIDE COUNTRY CLUB

A Gay Company Joins in the Drag Hunt—To Wed in Louisville.

[Special to The Times-Dispatch.]

PETERSBURG, VA., November 10.—Mr. Richard Pegram Myers, a well-known Petersburg student at the Virginia Polytechnic Institute, has been appointed by Senator Daniel a cadet from the State at large to the United States Naval Academy at Annapolis.

Mr. Myers is a son of Mrs. Nannie Myers, of this city, and is a nephew of Commodore Harrison Cocke.

A gay company gathered at the Riverside Country Club this afternoon to see the drag hunt come off. The hunt was informed of the Saturday afternoon tea. The hunt was one of the best of the season, as the weather was perfect and the course in unusually good condition.

Mr. Charles Evans Plummer left today for Louisville, Ky., where next Wednesday evening he will be married to Miss Margaret Creel, daughter of Mr. and Mrs. Buckner Miller Creel, of that city. Mr. Plummer was accompanied by his best man, Mr. Hamilton Rogers, of Richmond.

The police this afternoon arrested Emmet Hines, a Prince George county negro, for stealing a horse and buggy from Waverly Wilkins, colored, at Centre Market. The horse and buggy were afterwards found in the road.

The five-year-old son of Rosa Lewis, colored, was found dead in bed from suffocation by smoke in his mother's room this morning by neighbors. The mother had gone to her work, leaving a fire in the wood-heater. The frame tenement house on Shore Street, where the fire occurred, was slightly damaged.

BAPTIST HOSTS ON TO RICHMOND

to legislate for the independent churches, and if it does any governing at all, it is merely by suggestion or recommendation. It is, in fact, nothing more than a State Baptist missionary society, however, and it continues to do the work of the denomination and to make such suggestions to the churches throughout the State as the delegates may deem proper. The independent churches (every Baptist church in the land is independent) accept and act upon the suggestions and recommendations in part or as a whole, or reject or ignore them, just as each church may deem best.

Association's Influence.

Baptists claim that theirs is the purest democratic State's rights government under the stars.

It is often said that the Baptists really have no church government, but it is certain that they are a very homogeneous people, working in the Lord's vineyard with great unity and fixedness of purpose, and the individual churches come very near to accepting and working under all the wise suggestions and recommendations that are passed by a majority of the delegates to their State and national bodies or missionary conventions. That is to say, that, while the General Association has no power over the churches in Virginia, it yields a wonderful influence for good, and great missionary, benevolent and educational projects are set on foot by it that are afterwards carried to glorious success by the combined energy of the individual churches throughout the State.

At the annual sessions of the body reports from the officers of the missionary boards and other enterprises of the denomination are submitted and furnish subjects for discussion, and many addresses on the Lord's work in the world are delivered at these meetings. These reports also furnish very interesting statistics showing what the Baptists of the State are doing each year.

The Denomination in Virginia.

There are now twenty-seven district associations in the State, and two more were formed during the past summer, and will send delegates to this meeting of the General Association. Within Virginia and represented in this body there are 1,000 churches, five hundred and sixty min-

isters and many more with a very attractive front view, on very respectable streets, but the owners of these same houses would be ashamed for friends or visitors to see what unattractive rear premises they have, on account of the alleys in the rear. There are many houses and frontings on side streets, with the windows overlooking one of these dirty alleys in which case it is often hard to find a tenant for such a residence. And, as not even one can select the exact location and house in which he would prefer to live, some are compelled to take houses in such undesirable localities.

The poorer sections of our city should be given publicity any more than those sections of our country, weather fellow citizens need, but let us be sure that we have a fair distribution of the tax-payers' money, and that these streets and alleys which need attention most should receive it first.

Kindly allow the writer to say, also, that he believes he speaks for a large number of patrons of the street cars in heartily seconding your suggestion that the cars should stop on the near side of all corners for obvious reasons.

Pabst Beer Most Popular

American People Appreciate Clean, Wholesome Beverage.

With the increased consumption of beer the public is becoming more and more discriminating. Once upon a time beer was beer, but now we are learning particular what we drink in the way of beer. Each brewer makes his own particular brand or brands, each with other marked characteristics. While the process of brewing is the same in general, it is not at all the same in particular. Pabst is recognized in the country and abroad as the pioneer in perfecting the clearest process for making beer, which was not the leader in the science of brewing. It was Pabst who first recognized the desirability, but the necessity of absolute cleanliness in the brewing, cooling and aging beer. Today he leads in the cleanliness of his process. Pabst beer is not cooled in open rooms where men walk in and out, but in sealed tanks, where it stays until it is aged, and then only after air can reach it. Pabst beer is not aged in barrels, but in sealed tanks, where it stays until science shows it perfect in age, purity and strength—the clearest beer ever made.

Large Attendance Expected.

There is every indication that this year's session of the association will be more largely attended than any previous year. For many years past, in addition to the regular list of delegations, which numbers something over seven hundred, there will be numbers of visitors from adjoining States. Among the prominent visitors expected, the following may be mentioned: Rev. Dr. J. V. Van Ness, editorial secretary of the Sunday-School and Bible Board, at Nashville, Tenn.; Rev. Samuel G. Nell, of Philadelphia, district secretary of the American Baptist Publication Society; Rev. Dr. E. Y. Mullins, of Louisville, president of the Southern Baptist Theological Seminary; Rev. Dr. R. D. Gray, of Atlanta, secretary of the Home Missions Board; Mr. Joseph W. Bailey, of Raleigh, N. C., editor of the "Biblical Recorder"; Rev. Dr. A. B. Dunaway, of Oxford, N. C., and Rev. Sparks W. Melton, of Augusta, Ga.

Young People's Union.

The Baptist Young People's Union, an auxiliary of the General Association, will hold their annual meeting in connection with the watchful eyes of the scientific world. It is the hope of the association that the imported hops are used, thus it is rich in tannin properties. It never leaves the brewery until fully aged and perfect in flavor and strength—the clearest beer ever made.

Thus it is in these days of discrimination Pabst Blue Ribbon Beer is the most popular beer with the doctors and the people who value its richness and its cleanliness.

Thirty years ago we were a number of households in this country which the most popular beer was Pabst Blue Ribbon Beer. It is now the most popular beer in the country.

I admit the meat was a little dry, but it had a peculiar flavor, which I suppose is characteristic of buffalo meat. It was good enough to be called a delicacy, in my opinion. —Chicago Journal.

WHEN ORDERING ASK FOR PABST

isters supply these churches, and the rolls show about 125,000 members.

The financial exhibits at this session of the General Association will show that these churches have given this associational year to the mission boards of the denomination about \$105,000, which will be an increase over last year's contribution of \$10,000, or about \$10,000.

In addition to this goodly sum for the spread of the Gospel, the Baptists have raised other money during the year, about as follows:

For support of pastors, \$20,000; for current expenses of churches, \$80,000; for support of Sunday school, \$25,000; for aid of the poor, \$15,000; for church buildings and improvements, \$12,000; for the association fund, \$1,000; for miscellaneous purposes not above enumerated, \$20,000. Total, \$162,700. This amount added to the amount contributed to the bodies of the Baptists in Virginia, is an increase along all lines of something over 10 per cent., as compared with the figures of the last year.

Last year's reports to the General Association placed the value of the Baptist Church buildings in the State at \$27,886,666. This year's reports will show an increase that will make the total fully \$30,000.

The Church's Enterprises.

Among the enterprises of the Baptists of the State that are under the watch-care of the General Association is the orphanage, located at Salem. It is understood that the report from the Board of Trustees of this institution will show that its property has been greatly enhanced in value and its facilities for doing the work it was established to do have been greatly enlarged. The school, reported upon that are located after by the General Association and that were reported upon and discussed are Foreign Missions, with the State Board of Foreign Missions at Norfolk; Home Missions, with a State board in charge of this work at Lynchburg; State Missions, with a board located in Richmond; Education Board, which helps young men who are studying for the ministry and is located in Richmond; Ministers' Relief Fund, which helps infirm and indigent preachers and their families, and is also located in Richmond; the Education Commission, which has charge of the general educational interests of the denomination in the State, with headquarters here; the Sunday-School and Bible Board, located in Petersburg.

The police this afternoon arrested Emmet Hines, a Prince George county negro, for stealing a horse and buggy from Waverly Wilkins, colored, at Centre Market. The horse and buggy were afterwards found in the road.

The five-year-old son of Rosa Lewis, colored, was found dead in bed from suffocation by smoke in his mother's room this morning by neighbors. The mother had gone to her work, leaving a fire in the wood-heater. The frame tenement house on Shore Street, where the fire occurred, was slightly damaged.
